

James A. Fazzone, Ed. D.  
*Interim Superintendent*

March 3, 2022

Dear MCSSSD family:

Recently we announced that the mask mandate for all students and staff to wear face masks in school at all times would end effective March 7, 2022. At that time, this did not include school busses, however on February 25, 2022, the CDC announced that the requirement for wearing masks on buses or vans operated by public or private school systems, including early care and education/childcare programs has been lifted. Accordingly, MCSSSD has decided to end the mask mandate on school transportation effective March 7, 2022.

As a reminder, masks are now optional at MCSSSD, both in school buildings and on busses, but that does not mean that face masks will no longer be seen so please be respectful of other people's personal decision to wear, or not wear, a mask as we continue to practice kindness and understanding.

Sincerely,

A handwritten signature in blue ink that reads "James A. Fazzone".

Dr. James A. Fazzone  
Interim Superintendent
