Dear MCSSSD family:

While the NJ Travel Advisory is no longer in effect, individuals should follow CDC guidance regarding domestic and international travel. The guidelines are as follows:

### **Domestic Travel Recommendations for Fully Vaccinated People**

If you are [fully vaccinated](#), take the following steps to protect others when you travel:

Have You Been Fully Vaccinated?

People are considered fully vaccinated\*:

- 2 weeks after their second dose in a 2-dose series, such as the Pfizer or Moderna vaccines, or
- 2 weeks after a single-dose vaccine, such as Johnson & Johnson's Janssen vaccine

If you do not meet these requirements, you are NOT fully vaccinated. Keep taking all [precautions](#) until you are fully vaccinated.

- After Travel
  - Self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms.

You do NOT need to get tested or self-quarantine if you are fully vaccinated or have recovered from COVID-19 in the past 3 months. You should still follow all other travel recommendations.

### **Domestic Travel Recommendations for Unvaccinated People**

If you are not fully vaccinated and must travel, take the following steps to protect yourself and others from COVID-19:

- Before you travel:
  - Get tested with a viral test 1-3 days before your trip.
- After you travel:
  - **Get tested with a viral test 3-5 days after travel AND** stay home and self-quarantine for a full 7 days after travel.
    - Even if you test negative, stay home and self-quarantine for the full 7 days.
    - If your test is positive, [isolate](#) yourself to protect others from getting infected.
  - If you do not get tested, stay home and self-quarantine for 10 days after travel.
  - Avoid being around people who are at [increased risk for severe illness](#) for 14 days, whether you get tested or not.
  - Self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms.

For those traveling internationally, please follow the CDC guidelines at the following link:
